This Ain't Funny

urbantitan.com

Many of you like to draw. Make a cartoon that show the three ways heat is transferred. It can be funny, but make sure you show the key concepts that make each transfer unique . Neatness and coloring count.

Radiation

Conduction

Convection

Draw a diagram that shows how the energy from the Sun is absorbed and transfer to heat on Earth. Show using labels & arrows: ultraviolet and light energy; reflected light ; energy absorbed by the atmosphere and earth; heat reflected to and from the earth.

Earth- Atmosphere Energy Balance
